Customers have easy accessibility to the depth and breadth of Party City's one-of-a-kind balloon assortment, which has a dedicated service area.

The latest design brings birthday shopping to the next level with what Dion Miliareisis, VP of Merchandising at Party City describes as "birthday worlds". "With this introduction, we have moved away from the traditional aisle experience and have developed two birthday worlds within each store. One is dedicated to kids' birthdays, and one for general birthday celebrations. These are complete mini-shops, with everything brought together in one place – this makes it easy for the customer to find everything they need and to hopefully discover a few surprises and fun ideas to add to their celebration along the way," says Miliareisis.

Party City's Metairie, Louisiana store is one of several locations across the country where the new format will be introduced, with additional locations planned to open this year.
